Microlearning Sessions Activity
DIGITAL LITERACY

CITIZENS XELERATOR

Activity 1: Brainstorming

Objective:

- Participants to get to know each other better

Materials needed:

- Flipchart/whiteboard

Duration:

- 10 minutes

Description:

You will need a flipchart or a whiteboard to register everybody`s input. This encourages the participants by showing that there are no wrong or right answers.

Possible questions:

- What is an online search?
- How might this knowledge be helpful in our daily lives?
- How does information end up on the internet?
- What kind of risks might you encounter while searching online?
- How much do you use the internet daily?
- Do you think the Internet is a safe place?
- Do you think all the information on the Internet is true?
- Do you have a social media account? If so, what kind of information do you post on the Internet?
